# Migrant Education Program

## 2022-2023

## How does my child qualify?

To qualify, any or all of your children have to meet the following conditions:

- Traveled 20 miles one way or crossed school district boundaries to go commercial fishing, subsistence fishing, clamming or berry picking.
- Spent a total of 7 nights/8 days away from home doing 'qualifying' activities within a 12-month period (does not have to be consecutive nights).
- There is an economic need for the commercial or subsistence activities.
- Children ages birth to 20 (22 if the child is receiving special education services) can qualify for the program. However, once a child has graduated with a diploma, they no longer qualify for services.

## Migrant Program Information

A primary goal of the migrant program is to increase literacy at home and assist in improving educational opportunities for migrant children to help meet the challenging state academic content, to graduate from high school, and be a responsible citizen of the community.

In 2021-2022 there were 341 migratory children in Southwest Region School District; 50% of the student body population.

All eight sites in the district have a migrant coordinator that helps organize family nights and support student selected book distribution.
