

ALEKNAGIK MIGRANT FAMILY NIGHT

Pirate Adventure

March 6th

SCAVENGER HUNT

The students were assigned to teams and given a single card containing a riddle that led them to their next clue. Each team had to solve 9 clues in order to find their treasure. The kiddos enjoyed raising around the school in search of their clues. Each treasure chest contained materials for the next activity, gold doubloons, a board game for the younger students and a book for the secondary students.

BOAT CHALLENGE

Next, students participated in a foil boat making contest. Each kiddo used foil to create a boat. The goal was to see how many pennies their boat could hold before it sank. They were provided with unlimited supplies and made modifications after each trial. The students enjoyed the challenge and each made multiple boats to test.

FAMILY FUN

Each family received a pirate themed board game to enjoy playing together. Kiddos had fun testing them out at school before bringing them home to play together.
