

# MIGRANT EDUCATION NIGHT

## BIG BRAINS AND BOARD GAMES

WILLIAM SONNY NELSON SCHOOL/ SATURDAY, MARCH 23, 2019

### Literacy is fun!

William Sonny Nelson School was teeming with laughter and collaboration tonight! The evening began with a tour of board games and location of directions. Students were able to choose from any game they wanted to play.

Students and parents were reading directions and learning to play the games together. Everyone was having a blast practicing sounding out hard words.

### "GOOD GAME!"

Competition was fierce but everyone was a great sport. Families were high-fiving, students were laughing, and "good game," could be heard after the winners were

declared. Older students reached out to younger students and helped them learn to play a variety of games. The big hit of the night was Battleship. Once the groups understood the directions, the battles commenced. People were crowded around and cheering at every, "hit!"

### Learning Together

The students showed a great deal of teamwork, helping each other read instructions and tons of smiles.

Many of the parents and siblings joined in and helped the kids be successful. It was a great opportunity for everyone to see how important and fun reading is no matter how old you are!

**FAMILY FUN:** We had a great turnout! There were parents that joined in the fun. The students especially enjoyed being read to by their mothers and fathers.

**GIVEAWAYS!** The kids enjoyed choosing their books and board game to take home. Many of the kids sat down and began reading right away!

**THANK YOU!** A big thank you goes out to the William Sonny Nelson staff for helping make Migrant Ed Night run so smoothly.
