### 2024-2025 Survey Results

### 2024-25 District Responses to Feedback

## Dear Stakeholder,

Southwest Region School District (SWRSD) values feedback from parents, community members, and tribal organizations. Communication is a key component to having more collaborative opportunities between SWRSD and parents. It is important that you have access to information about educational programs and have the opportunity to ask questions, make comments, and provide suggestions.

In October, surveys were sent to parents and Tribal organizations to solicit feedback about the education programs in the district. In addition, each year there is a public meeting at each of our schools outlining the educational programs, curriculum resources, and individual school plans. The survey results were collected, as well as, the questions and comments from the public meetings. Below are the responses to the questions and comments.
