

WILLIAM SONNY NELSON SCHOOL

School Improvement Spring Update

Goal 1 - Reading

Goal 1 is to improve reading for K-5 students. Staff are implementing instruction based in the science of reading. Additionally, students are receiving small group interventions through a tutoring program. 100% of actions/strategies are complete or implemented.

Goal 2 - Attendance

Goal 2 is about improving student attendance rates. The goal is a school-wide attendance rate has increased 86%, and increase of 1% from the mid-year report. The school is on track to meet this goal

Goal 3 - Comms

Goal 3 is to continue to develop effective communication strategies with the parents and community. School staff have increased the number family engagement nights. 100% of these strategies are being implemented.

Spring Update!

We want to celebrate the fact that William Sonny Nelson School is exiting from the school success process! The school success process has worked and has significantly improved the performance indicators. The School Success Team will continue to implement the success plan through the end of this year.

The school staff and the school success team has been working hard on the implementation of the School Success Plan. There is a focus on reading in the elementary grades that include providing interventions for students that need extra help. Teachers are constantly checking on how students are doing and adjusting teaching to meet the needs of the students.
