## Assurance Agreement for Schoolwide Plan

Upon implementation of the schoolwide plan, the Title I school served a student population in which at least 40% of the students are from low-income families, or the school received a waiver from the Alaska Department of Education & Early Development to operate a schoolwide program without meeting the 40% poverty threshold. The school has completed the schoolwide planning process and has met the requirements of the Title I legislation relating to schoolwide planning, implementation, and evaluation criteria as outlined in section 1114 of the ESEA. The district has worked in consultation with the school as the school developed the schoolwide plan and will continue to assist the school in implementing, evaluating, and revising the plan annually.

## Title I Schoolwide Program Overview

A Title I schoolwide program is a comprehensive reform strategy designed to upgrade the entire education program in a Title I school in order to improve the achievement of the lowest achieving students (ESEA section 1114(a)(1)). Under ESEA, a school may initially operate a schoolwide program if it meets any of the following conditions:

- A Title I school with 40% or more of its students living in poverty, regardless of the grades it serves.
- A Title I school that receives a waiver from the Alaska Department of Education & Early Development to operate a schoolwide program without meeting the 40% poverty threshold.

### Benefits from Operating a Schoolwide Program

A school that operates a schoolwide program is able to take advantage of numerous benefits, including:

- **Serving all students.** A school operating a schoolwide program does not need to identify particular students as eligible to participate, or individual services as supplementary. (ESEA section 1114(a)(2)(A)).
- **Consolidating Federal, State, and local funds.** A school operating a schoolwide program may consolidate Federal, State, and local education funds to better address the needs of students in the school. (ESEA section 1114(a)(1), (3)).

### Consultation and Coordination

- The plan must be developed with the involvement of parents and other members of the community to be served and individuals who will carry out such plan, including teachers, principals, other school leaders, paraprofessionals present in the school, administrators (including administrators of programs described in other parts of this title), the local educational agency, to the extent feasible, tribes and tribal organizations present in the community, and, if appropriate, specialized instructional support personnel, technical assistance providers, school staff, if the plan relates to a secondary school, students, and other individuals determined by the school. (ESEA section 1114(b)(2))
- If appropriate and applicable, the plan must be developed in coordination and integration with other Federal, State, and local services, resources, and programs, such as programs supported under this Act, violence prevention programs, nutrition programs, housing programs, Head Start programs, adult education programs, career and technical education programs, and schools implementing comprehensive support and improvement activities or targeted support and improvement activities. (ESEA section 1114(b)(5))
- The plan must be available to the local educational agency, parents, and the public, and the information contained in such plan shall be in an understandable and uniform format and, to the extent practicable, provided in a language that the parents can understand. (ESEA section 1114(b)(4))

### Implementing a Schoolwide Program

There are three required components of a schoolwide program that are essential to effective implementation: conducting a comprehensive needs assessment, preparing a comprehensive schoolwide plan, and annually reviewing and revising, as necessary, the schoolwide plan.

- **Conducting a comprehensive needs assessment.** To ensure that a school's comprehensive plan best serves the needs of those children who are failing, or are at-risk of failing, to meet the challenging State academic standards, the school must conduct a comprehensive needs assessment. (ESEA section 1114(b)(6)). Through the needs assessment, a school must examine relevant academic achievement data and other data to understand students' most pressing needs and their root causes. The needs assessment should include consultation with a broad range of stakeholders (described above). Where necessary, a school should attempt to engage in interviews, focus groups, or surveys, as well as review data on students, educators, and schools to gain a better understanding of the root causes of the identified needs.

- Preparing a **comprehensive schoolwide plan** that describes how the school will improve academic achievement throughout the school, but particularly for the lowest-achieving students, by addressing the needs identified in the comprehensive needs assessment. (ESEA section 1114(b)(7)).
  - The schoolwide plan must include a description of how the strategies the school will be implementing will provide opportunities and address the learning needs of all students in the school, particularly the needs of the lowest-achieving students. (ESEA section 1114(b)(7)(A)(i), (iii)). The schoolwide plan may include one or more of these activities:
    - counseling, school-based mental health programs, specialized instructional support services, mentoring services, and other strategies to improve students' skills outside the academic subject areas;
    - preparation for and awareness of opportunities for postsecondary education and the workforce, which may include career and technical education programs and broadening secondary school students' access to coursework to earn postsecondary credit while still in high school (such as Advanced Placement, International Baccalaureate, dual or concurrent enrollment, or early college high schools);
    - implementation of a schoolwide tiered model to prevent and address problem behavior, and early intervening services, coordinated with similar activities and services carried out under the Individuals with Disabilities Education Act (20 U.S.C. 1400 et seq.);
    - professional development and other activities for teachers, paraprofessionals, and other school personnel to improve instruction and use of data from academic assessments, and to recruit and retain effective teachers, particularly in high need subjects; and
    - strategies for assisting preschool children in the transition from early childhood education programs to local elementary school programs;
  - The plan must also contain descriptions of how the methods and instructional strategies that the school intends to use will strengthen the academic program in the school, increase the amount and quality of learning time, and help provide an enriched and accelerated curriculum, including programs and activities necessary to provide a well-rounded education. (ESEA section 1114(b)(7)(A)(ii)).
  - To ensure that the plan results in progress toward addressing the needs of the school, the plan should include benchmarks for the evaluation of program results. This plan may be integrated into an existing improvement plan.
- **Annually evaluating the schoolwide plan**, using data from the State's assessments, other student performance data, and perception data to determine if the schoolwide program has been effective in addressing the major problem areas and, in turn, increasing student achievement, particularly for the lowest-achieving students. Schools must annually revise the plan, as necessary, based on student needs and the results of the evaluation to ensure continuous improvement. (ESEA section 1114(b)(3)).

## Plan Development and Consultation

A. Describe the composition of the planning team. Provide a list of team members, who they represent, and their roles and/or responsibilities. (Each group should have at least one participant.)

\*Administrators of programs that are to be consolidated in the schoolwide plan.

**B. Describe the process used to develop the schoolwide plan.**

There will be one small team consisting of school staff and a larger team consisting of school staff, parent(s), Tribal representative, community member(s), and district staff as needed.

1. Staff team meets to perform an initial needs assessment based on available data (statistical and anecdotal).
2. Initial needs assessment is brought to the whole team to determine additional areas of need; prioritize the needs; and develop goals to address between one and three need areas. The timeline of the goals may be several years in the future to allow for full implementation of a plan.
3. Staff team meets to develop an actionable plan to address the identified needs areas.
4. The initial actionable plan is brought to the whole team for review and revisions are made as necessary.
5. The Title IA plan is presented to the community at the annual Title IA meeting in the fall of the following year.
6. Recruitment of stakeholders to be a part of the planning team occurs during the fall Title IA meeting.

**C. Use the following table to summarize the steps and activities of the planning process. Provide information about meeting dates and agenda items/topics as well as future meeting dates.**

**D. Describe the process for communicating with all members of the school and community who were not part of the planning team about the planning process, data collection, plan development, and plan approval. Include specific information describing how parents were notified of the schoolwide planning process and involved in the plan development.**

The planning process, data collection, plan development, and plan approval communication plan is as follows:

- September - a letter is sent home to all parents.
- September – process explained during annual Title IA meeting with community
- September – process is presented at a local CSC meeting
- September – recruitment of stakeholders for the planning team
- February – needs assessment is completed
- March – schoolwide plan updated
- April – revised schoolwide plan presented at a local CSC meeting or parent/community meeting
- April – letter sent home about revised plan and explaining how to access the Title IA Schoolwide Plan

## Comprehensive Needs Assessment

### A. Provide a brief description of the school, attendance area, and community.

Aleknagik School is a K-12 school located in the community of Aleknagik and has a student population of about 28 students. Aleknagik School is part of the Southwest Region School District which is a regional education attendance area within the Dillingham Census Area. The community of Aleknagik has a population of about 220 residents.

### B. Describe how the comprehensive needs assessment was conducted in an inclusive manner so it reaches all members of the school community (including regular education, special education, talented and gifted, migrant, English Learners, homeless, foster care, etc. as well as low-achieving students), paying particular attention to the needs of educationally disadvantaged children.

The comprehensive needs assessment is comprised of several steps that include, but are not limited, to the following activities:

1. A profile review that consists of an analysis of student achievement (AK Star, MAP, local assessments) attendance, enrollment trends, graduation rates, and behavioral data. This data is broken down by sub-group when possible.
2. A profile review that consists of an analysis of instructional staff retention rates, attendance, qualifications, and other information (teachers and paraprofessionals)
3. A program review of site specific programs including a fidelity review, cost analysis, and desired outcomes.
4. A practice review that includes an assessment on a multitude of indicators in the areas of leadership, recruitment/retainment of staff, instructional transformation, and the culture of learning.
5. A community review was completed to engage the community in identifying areas of need and strengths.

The needs assessment is outlined in the schoolwide plan which is shared with staff and community through the district website, at the annual Title IA meeting, during a CSC meeting, and available by hard copy by request.

**C. Summarize the areas of the school's current educational program that need improvement as identified in the comprehensive needs assessment. Identify priority of focus areas for achieving the outcomes of the proposed schoolwide program as being High, Medium, or Low.**

## Schoolwide Plan Strategies

### A. Describe the strategies that the school will be implementing to address the identified school needs.

The staff will conduct a back to school data dive based on the Fall MAPS scores to group students and create intervention plans for students in order to reach the stated goals in reading and math by the winter MAPS test.

Staff will conduct bi-weekly formative assessments aligned with MAPS and STAR testing standards and rigor in order to measure student progress towards the goals in reading and math.

Staff will track family attendance during family engagement nights and compare the results to the stated goal. Staff will increase parent engagement through personal phone calls, written, and verbal invitations to family engagement events.

Monthly attendance reports and attendance reminders will go home to parents.

### B. Describe the strategies that the school will use to provide opportunities for all children, including each of the subgroups of students, to meet the challenging State academic standards.

Teachers will use data driven instruction that is differentiated to meet the needs of all students.

The school will continue implementation of PBIS best practices in order to meet the needs of all students.

### C. Describe how the school will use methods and instructional strategies that strengthen the academic program in the school, increase the amount and quality of learning time, and help provide an enriched and accelerated curriculum, which may include programs, activities, and courses necessary to provide a well-rounded education.

Proficient and advanced students will be offered advanced courses in reading and mathematics, for instance pre-algebra or algebra 1 in 8th grade.

Students will be given one hour a day of intervention time in order to fill gaps in learning

Teachers will implement the Alaska Cultural Standards in their lesson in order to enrich the learning for students.

### D. Describe how the school will address the needs of those at risk of not meeting the challenging State academic standards.

Students will be given one hour a day of intervention time in order to fill gaps in learning

Teachers will implement the Alaska Cultural Standards in their lesson in order to enrich the learning for students.

Teachers will use data driven instruction that is differentiated to meet the needs of all students.

The staff will conduct a back to school data dive based on the Fall MAPS scores to group students and create intervention plans for students in order to reach the stated goals in reading and math by the winter MAPS test.

Staff will conduct bi-weekly formative assessments aligned with MAPS and STAR testing standards and rigor in order to measure student progress towards the goals in reading and math.

## Annual Evaluation & Review Process

### A. Describe how the school will evaluate whether the elements of the schoolwide plan have been implemented as planned.

Walkthrough evaluations to verify implementation at the classroom level.

Evidence folder (digital or physical) with examples of PD, family engagement attendance, and differentiated strategies based on MAPS data for select subgroups.

Monthly powerschool attendance report, signed attendance letters for at-risk students, kept on file and maintained by site secretary.

### B. Describe how the school will measure and report student progress on the State's annual assessments and other indicators of student achievement at the end of the school year, for all students and for subgroups of students.

The district will mail home the Alaska School Report Card to all parents

The school will mail home the NWEA MAPS Family Report to all parents and students and will schedule a time to discuss the report with parents during parent-teacher conferences.

The school will send home an end of year attendance report for all students.

### C. Describe how the school will evaluate the results of the schoolwide plan in increasing student achievement in meeting the State's academic standards, particularly for those students who have been further from achieving standards, and meeting the goals and objectives in the plan.

Results will be evaluated based on data from the following sources:

Alaska School Report Card, NWEA MAPS, Powerschool Attendance, Family Engagement Activity Attendance

### D. Describe how the school will use the results of the annual evaluation of the effectiveness of the schoolwide plan to make revisions to the plan to ensure continuous improvement of the students in the schoolwide program.

By using the results of the annual evaluation of the effectiveness of the schoolwide plan to make revisions to the plan.

## Financial Requirements

- A. Indicate which, if any, of the state, local or federal program resources are used to support the schoolwide plan. (Include only funds that are used to implement components of the schoolwide plan in the school. See 34 CFR, Section 220.29 for regulations relating to consolidation of funds from federal programs.)
